## *Newsletter Dec 2005*

### **Christmas message 2005**

Dear SAIAE members

The year 2005 has passed quickly and the Institute has started to prepare for the implementation of Continuous Professional Development (CPD) in January 2006. All available information concerning how future CPD points will work has been shared with members over the last three months through our Institute Newsletters. For 2006 this will be one of our focus areas.

Highlights during 2005 were a very successful CPD event as well as the publication of the SAIAE living history commemorative book. A new Council has successfully launched actions in focus areas and focussed on the marketing of the profession to the wider public.

To all our members, may the coming Christmas season be blessed where on the one hand you can rest and on the other hand spend some time on what has eternity value in our lives. A prosperous new year to each and everyone as well as your families.

Kind SAIAE regards

Louis Lagrange
